

# Print + Draw + Fold

## Exploring mixed media within a Leporello format

### with Sandra Pearce

#### Workshop outline –

Day one will start with monoprinting using a gelatine plate exploring advanced printing techniques including composition, registration, transparent layers, white over dark, and self-made stencils.

We will explore the idea of the Leporello – an accordion fold book format - both basic and more creative including popups, cutouts and stitching.

During day two you'll work in your chosen book format, combining monoprinting with drawing, tracing, collage and mark making to create a unique narrative that expresses your personal and creative style.

At the end of the weekend, you'll have a stack of colourful prints, decorated papers to cut up and work with, and at least one artist book.
